

Grail Learning

MIEC has partnered with Grail Learning to offer members access to free, accredited Continuing Medical Education (CME) that focuses on patient safety and reducing liability risk.

Courses consist of multiple short-form modules that take only 15-20 minutes to complete, and courses are optimized for mobile platforms and handheld devices. Each member can earn up to up to 4 hours of CME by taking a combination of courses.

Through Grail Learning, MIEC members can benefit from three different types of learning content:

- ✔ **CasePoint Core Modules** give members a foundational education that focuses on key drivers of clinical risk
- ✔ **CasePoint Specialty Modules** enhance members' abilities by utilizing a range of risk-specific scenarios based on their specialty role
- ✔ **Praxis Conversation Simulations** allow members to refine their conversation skills in a safe-to-fail environment with personalized AI coaching

Members are encouraged to begin with Core modules and progress to the Specialty modules. For an interactive learning experience, members can try the Praxis Conversation Simulations after completing the related prerequisite CasePoint course.

Premium credit

MIEC members can qualify for a 5% premium credit for completion of Grail coursework. Once earned, the credit will be applied at policy renewal and it will be effective for three years.

Program requirements

1. Complete a minimum of three (3) hours of Grail coursework from any of the available courses.
2. Follow the steps to earn the continuing education credits for each completed course.

After successful completion of the above steps, the premium credit will be automatically applied for eligible physicians. The deadline for completion of Med-IQ coursework to earn the PSRM Credit is 60 days prior to your renewal effective date.

How to register

MIEC members can register for Grail and access their active accounts through the following link: casepoint.grail-learning.com/miec/miec-new

New users will be directed to register (please note: MIEC policy number, NPI, and license number are required for registration) and existing users will be directed to log in to Grail.

For technical assistance, users who are logged in can click on "Support" in the upper right-hand menu or go to the following link: <https://casepoint.grail-learning.com/support>.

To contact Grail directly:
